## Definition of a large co-operative

A co-operative is defined as a large co-operate for a particular financial year if:

- it issues shares to **more than 20 prospective members** during that year and the amount raised in that year by the issue of those shares **exceeds \$2 million**.

or

- it has **securities on issue** to non-members during that year, **other than**:
  - shares in the co-operative; and
  - securities issued in respect of the co-operative's obligations under section 163 of the *Co-operatives National Law (Tasmania) Act 2015*

or

- it satisfies at **least 2** of the following criteria:
  - The consolidated revenue of the co-operative and the entities it controls (if any) is **\$8 million or more** for the previous financial year.
  - The value of the consolidated gross assets and the entities the co-operative controls (if any) is **\$4 million or more** at the end of the financial year.
  - The co-operative and the entities it controls (if any) had **30 or more employees** at the end of the financial year. In counting employees, part-time employees are to be taken into account as an appropriate fraction of a full-time equivalent. For example, four half-time employees should be counted as two employees.

Consolidated revenue and the value of consolidated gross assets are to be calculated in accordance with accounting standards in force at the relevant time (even if the standard does not apply to the financial year of some or all of the entities concerned).

If your co-operative does not meet the criteria for a large co-operative, lodge a small co-operative annual return instead of this form.
