Document Development History

Version	Application Date	Sections amended
1.1	24 July 2019	<ul style="list-style-type: none">• Definitions from the Occupational Licencing (Plumbing Work) Regulations 2010 inserted.• Reference to Tasmanian Plumbing Code deleted• Specification of the National Construction Code, certain Australian Standards and the Installation Code for Metal Roofing and Wall Cladding handbook, as applicable standards.
1.0	15 December 2010	Original release

1. Short title

This Code of Practice may be cited as the Occupational Licensing (Standards of Plumbing Work) Code of Practice 2019.

2. Purpose

This Code of Practice establishes minimum standards required for the performance or management of plumbing work or associated plumbing work.

3. Interpretation

In this Code of Practice:

“plumbing work” and “associated plumbing work” have the same definitions as provided by regulation 3 of the *Occupational Licensing (Plumbing Work) Regulations 2010*.

4. Standards of Plumbing Work

For the performance or management of plumbing work or associated plumbing work, the requirements of the following technical documents must be complied with:

- I. The National Construction Code including:
 - (i) Tasmanian Variations or Additions; and
 - (ii) Referenced technical Standards;

and where appropriate to the work being performed:

2. The handbook published by Standards Australia: SAA HB39, “Installation Code of Metal Roofing and Wall Cladding”.

5. Persons must comply with this code

A person performing or managing plumbing work or associated plumbing work must comply with the requirements of this Code.
